

U.S. Tariff Updates: Key Changes Announced What This Means for Your IT Procurement

Attention All Businesses!

The recent changes in U.S. tariffs are going to affect the cost of hardware and equipment from several major global suppliers, including **China**, the **European Union**, **Vietnam**, and **India**. While exact price adjustments are not yet available from OEMs, we know these increases will significantly impact your IT procurement costs.

Key Changes to Expect:

- China: 34% Tariffs
- European Union: 20% Tariffs
- Vietnam: 32% Tariffs
- India: 26% Tariffs

Note: We are highlighting tariff changes from a few of the key countries impacted. OEMs have not yet shared specific pricing updates, but price increases are anticipated.

How Axelliant Can Help?

- **Assess the Impact** – These tariffs will affect essential hardware costs, but updated manufacturer price lists are not yet available. We help you stay ahead.
- **Optimize Your Strategy** – Explore cost-saving options and alternative sourcing before price shifts take effect.
- **Act Proactively** – Get expert insights now to avoid disruptions when new pricing is released.

What's Next?

Tariff updates are live, but the exact impact on pricing is still uncertain. Connect with Axelliant to get ahead and protect your business from unexpected costs.
